

# CLINICAL SUPERVISION CASE REVIEW WORKSHEET

Mentee Name: \_\_ Date: \_\_

Case Reference (ID): \_\_ Session #: \_\_

---

## Section 1: Mentee Case Presentation (The 80%)

*To be completed by the mentee prior to or during the first 10 minutes of the session. Focus on the "Clinical Reasoning" rather than just the symptoms.*

**Current Protocol Summary:**

---

---

**The Primary Roadblock:** *What is the "stuck" point? (e.g., weight plateau, fatigue, non-compliance)*

---

**Mentee's Current Instinct (Check one):** - ☐ **Fear-Based:** "I need to add more supplements/tests to find the answer." - ☐ **Mastery-Based:** "I need to identify the physiological stressor blocking progress."

---

## Section 2: Socratic Inquiry & Clinical Logic

*Mentor: Use these prompts to guide the mentee toward the solution without giving the answer.*

Socratic Prompt	Mentee Response/Discovery
<b>The Stressor:</b> "What lifestyle or life-stage factor (e.g., perimenopause) might be signaling 'danger' to the nervous system?"	
<b>The Protocol:</b> "How might the current restrictions (e.g., fasting, keto) be impacting the client's cortisol or thyroid?"	
<b>The Labs:</b> "If we look past the 'normal' range, what is the trend telling us about the client's resilience?"	

---

### Section 3: The Feedback "Sandwich"

*Mentor: Use this space to structure your constructive feedback.*

1. **Validation (The Strength):** *What is the mentee doing well?*

---

1. **The Pivot (The Correction):** *Correct the clinical logic (e.g., fuel restriction vs. metabolic demand).*

---

1. **Empowerment (The Action):** *What is the one specific change the mentee will suggest to the client?*

---

---

### Section 4: Supervision & Scope Safety

- [ ] **Scope Check:** Is this case within the mentee's legal/professional scope? (If no, discuss referral).
  - [ ] **Supplement Review:** Are we over-supplementing? (Goal: Minimum Effective Dose).
  - [ ] **Practitioner Wellness:** Is the mentee experiencing Imposter Syndrome or burnout?
- 

### Section 5: Reflection & Next Steps

**Mentee's Key Takeaway:**

---

**Mentor's Observation of Growth:**

---

**Next Supervision Date:** \_\_\_\_\_

---

*AccrediPro Standards Institute Certified Tool Level 3: Master Clinical Supervision*
